WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER

### PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

**SUMMARY**

A probable ammunition storage area is located 8 kilometers (km) north of Grodno (53-40N 023-50E) on the east side of the Neman River (Figure 1). The installation is not rail served. A secondary road provides access to the all-weather Grodno-Alytus highway. A possible bivouac area is located 1.5 km southwest. Military installations are located in Grodno, 8 km south and two training areas are located 15 km north and 33 km north-

east.

The installation, secured by a double fence, covers 20 acres and contains eight probable ammunition storage buildings (Figures 2 and 3).

This area was covered by 11 KEYHOLE missions between [REDACTED]

[REDACTED] Comparative analysis reveals no change in the installation. Track activity is observed on summer photography.

**DESCRIPTION OF INSTALLATION**

**Road Service**

A secondary road provides access to the Grodno-Alytus all-weather highway.

**Ammunition Storage Area**

Area F (Figure 3) has six 50- by 25-foot probable ammunition storage buildings, one

75- by 35-foot probable ammunition storage building, and one 100- by 50-foot probable ammunition storage building. These buildings are widely spaced and are enclosed with a double fence.
